Lomé

Summary

Versatile, I am currently in a Master's degree in Software Architecture, but for my current position at Mairie du Golfe3, I am both a software developer and a junior network administrator. Also, I am training in web3 to migrate to blockchain-based technologies. I am an editor on hashnode: <https://lskouami.hashnode.dev/> where I publish my progress.

Experience

Freelance (Self employed)

Web3 Developer

May 2022 - Present (1 month)

Lomé, Togo

Web2 developer, I am training in the world of web3 to migrate to new blockchain-based technologies. I am an editor on hashnode: <https://lskouami.hashnode.dev/> where I publish my progress.

Commune du Golfe 3

1 year 2 month

IT Software Developer

september 2021 - Present (9 month)

Lomé, Togo

For my current position, I'm both a software developer and a junior network administrator.

Here is my specification :

- IT referent on the project to digitize City Hall services,
- Deployment and maintenance of GLPI,
- Administration of servers and active directory,
- Management of the helpdesk , and Employees IT needs
- Mastery and maintenance of software used,
- Maintenance of the website, etc...

Vuejs Frontend Developer
April 2021 - August 2021 (5 month)
Lomé, Togo

Vuejs developer with TypeScript on the City Hall services digitization project. I worked on an internal messaging application, I learned how to structure a big project, did API integration also using Websockets.

INSEED TOGO

Case Collection Agent
January 2022 - February 2022 (2 month)
Maritime, Togo

In the process of the fifth general census of Togolese population (RGPH-5), I was chosen within the commune of Golfe 3 to collect the application files of enumerators and controllers who wish to work for the census. I saved each application in an software that I send to the INSEED TOGO server.
