SUMMARY

I'm a Full-Stack Engineer with over 7 years of experience building web apps. Rigorous and organized, I attach great importance to a job well done. I adapt very quickly and I am able to work in a team.

PROFESSIONAL EXPERIENCE

APE FACTORY GMBH, Software Engineer

09/2021 – present

APE FACTORY is a technology consulting company that helps enterprises in their digital transformation, by bringing together Data Engineering, Cloud Native architecture and a whole process based on the Lean principle.

Achievements Highlights

- Created pages from Figma design using React js and Tailwind css
- Worked on chat module (Nest js + Websocket + React js)
- Setup unit tests with jest
- Code Review

Stack: React js, Nest js, MongoDB, Serverless, Aws, Tailwind css, Python, Docker

JINIWAY SAS, Senior Software Engineer - Contract

01/2019 – 12/2019

JINIWAY is a startup studio. It feeds on ideas that impact our daily lives and ways of life.

Remote

Achievement Highlights

- Improved user experience and application performance with carefully constructed build systems.
- Worked directly with the CTO for technical decisions and implementation with our partners.
- Developed various software solutions such as Locasur for rent payment automation.
- Migrated existing REST APIs to GraphQL, using PostgreSQL and Sequelize to improve both the quality and organization of the backend code, as well as improve the performance and flexibility of client-side queries for the team's mobile developers.
- Worked closely with mobile operators partners (MTN, ORANGE, MOOV, TOGOCEL, YUP) in 3 countries to integrate APIs with our solutions.
- Designed meaningful data visualization through key metrics for daily use by administration.
- Created automated unit tests and integration tests in a test-driven development environment.
- Performed all testing and troubleshooting methods and documented resolutions in the system.
- Ensured team of developers followed software quality guidelines.

Stack: ReactJs, NodeJs, ExpressJs, PostgreSQL, Serverless, RabbitMQ, LogStash, ElasticSearch, React-Native, GraphQL

JINIWAY SAS, Software Engineer - Contract

05/2017 – 12/2018

Remote

Achievement Highlights

- Created a highly modularized backend code using NodeJs.
- Developed 2 backend APIs for the mobile and admin apps using ExpressJS.
- Implemented dashboard with visualization features using ReactJs to allow the managers to monitor all activities.
- Consulted with engineering team members to determine system loads and develop improvement plans.
- Wrote clean, well-tested code using Jest.
- Unblocking team members when blocked on tasks by helping to debug and perform root cause analysis of issues that arise.
- Helped create and maintain technical documentation.
- Build CI/CD

Stack: D3, React hooks and styled-components, NodeJs, ExpressJs, Heroku, ReactJS, React-Native, MongoDB

LAPOSTE, Software Engineer - Contract

12/2016 – 11/2017

Lome, Togo

As a consultant API Developer for LAPOSTE, I worked with a small team of 3 engineers to develop an API which made it possible to carry out more than 5 million dollars of transactions.

Achievement Highlights

- Built Sprint Boot Java APIs to connect the LAPOSTE bank to mobile money operators so that customers can create a bank account easily by using USSD shortcode and move money from the bank to their mobile wallet and vice versa
- Created other APIs for mobile developers

Stack: Java, Sprint Boot

AFROPLAN, Software Engineer - Contract

04/2016 – 05/2017

Remote

AFROPLAN is a digital platform available on web and mobile that keeps you informed in real time on sales, good deals on food products near you.

Achievement Highlights

- Built APIs for the mobile team.
- Wrote clean, well-tested code using Jest
- Assisted in the troubleshooting of code defects and the deployed timely fixes.

Stack : NodeJs, ExpressJs, AngularJs / Ionic, RabbitMQ, ElasticSearch, DialogFlow for ML

FREELANCE, Software Engineer - Contract

11/2015 – 04/2016

Lome, Togo

Provide, Develop and maintain software products for diverse client base, mostly done remotely.

Achievement Highlights

- Wrote maintainable and extensible code in a team environment.
- Modified existing software to correct errors, upgrade interfaces and improve performance.
- Consulted regularly with customers on project status, proposals and technical issues.

SKILLS

Backend

Node.js, Express, Apollo GraphQL, Redis, MongoDB, Mysql, Postgresql, RabbitMQ, Nest js

Test

Jest

Tools

Git, Slack, VSC

Frontend

React, Typescript, Javascript, Tailwind, Next js

Other

Docker, Continuous Integration and Continuous Delivery (CI/CD), Linux, Webpack, Heroku, Troubleshooting, Problem Solving
