🐦 Eniolacodes

⌗ Eniola-Codes

I am a prolific frontend web developer with a passion for bringing quality ideas to life and beating my former "best-works". I potray a positive attitude to work and love working in teams to solve problems.

WORK EXPERIENCE

Side hustle
(January 13, 2020 - April 19, 2020)

Frontend web developer intern

I worked with my lead to develop web applications which were landing pages such as staticz.netlify.app, foodie-page-landing.netlify.app, everythingsquidgame.netlify.app e.t.c that were fully functional.

HNG internship
(August 01, 2020 - October 01, 2020)

Frontend web developer intern

Worked alone to Build my first portfolio website, a calculator app (calculator-eniolacodes.netlify.app), a note taking app (note-taking-app-eniolacodes.netlify.app), then Collaborated with a team to build an authentication and cart system using React.js as our tech stack, which we completed successfully.

Freelancing
(November 01, 2020 - December 14, 2021)

Frontend web developer

I worked for clients and businesses by developing web applications to solve their business/brand needs and improve their online presence, a few are theplugdemo.netlify.app, gatewaylux.netlify.app, foodapp-by-eniola.netlify.app e.t.c

Uniskills
(January 03, 2022 - Present)

Frontend web developer

- I work hand in hand with my team to accomplish given tasks before the deadline.
- I avoided technical debt on the project by properly researching before using 3rd party librares and refactoring codes to the best practices
- I lead the development of 19 pages in the web app including the dashboard pages, student details, student listing, job listing e.t.c
- I support accountability by providng easy to understand daily reports, responses and feedbacks.
- I am very punctual to meetups and i share ideas that can lead to project growth.
